

ELECTRIC RANGE

100% electric.  
Zero emissions.

# 100% ELECTRIC

Launched in 2019, JCB's pioneering range of machines are 100% electric, with zero emissions and zero compromise on performance.

**JCB E-TECH**

**ZERO EMISSIONS**

**FAST CHARGE**

**LOW NOISE**

**FULL DAYS WORK**

## 100% OPPORTUNITY

Join the leaders in electric innovation as we work towards a more sustainable future. With the largest range of electric machines on the market, you can rely on JCB's expertise.

# MINI EXCAVATOR 19C-IE

The 19C-IE is a quiet and powerful mini excavator capable of a full days work. With the same power as the diesel model, rest assured the 19C-IE will get the job done.

## MORE FOR LESS

The 19C-IE has maintenance free batteries, requires minimal daily checks and less servicing, saving rental companies, hirers and owner operators time and money.

# SITE DUMPER ITE & 3TE

The ITE & 3TE works in perfect harmony with the 19C-IE excavator, operating indoors and in noise sensitive environments without costly fume extraction systems.

**JCB E-TECH**

**1,625 - 2290kg**  
OPERATING WEIGHT

**1,000 - 3000kg**  
PAYLOAD

**2.71 - 4.56m**  
TURNING RADIUS

## ULTIMATE VERSATILITY

Built to withstand the toughest job sites, the High-Tip skip allows the ITE to unload material into large containers, whilst its compact design enables working in confined areas.

# TELEHANDLER 525-60E

The 525-60E electric Loadall is the perfect workhorse for those tight inner-city sites. With opportunity charging, this compact telehandler will work all day.

**JCB E-TECH**

**2,500kg**

MAX LIFT CAPACITY

**6m**

LIFT HEIGHT

**720kg**

LIFT CAPACITY AT REACH

## SAFER WORKING

Adaptive Load Control prevents tipping during heavy loading, whilst low noise levels enable safe and efficient working amongst livestock and pedestrians.

# WHEELED LOADER 403E

The 403E delivers less noise, less vibration and less pollution. Combined with its compact size, the 403E is perfect for working indoors or in other enclosed spaces.

**JCB E-TECH**

**2729kg**

OPERATING WEIGHT

**640kg**

PAYLOAD

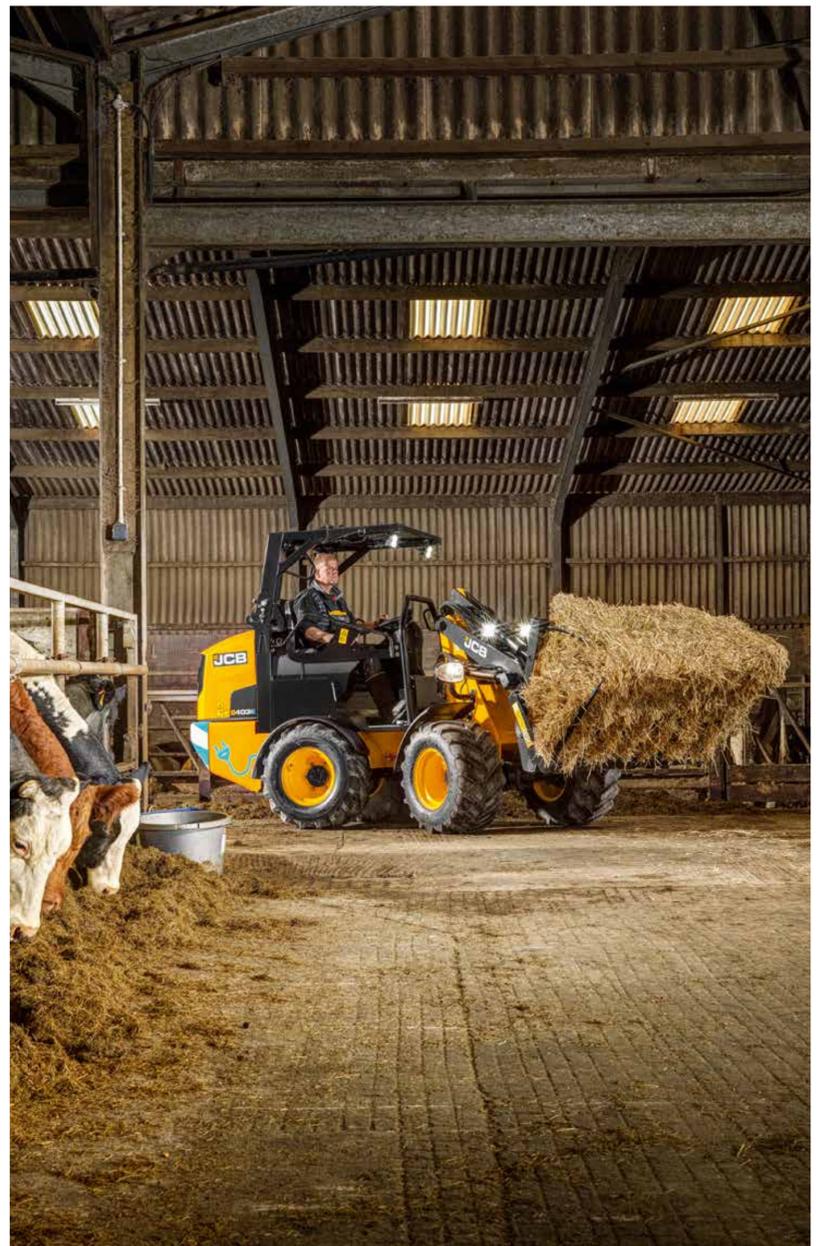

**0.5m<sup>3</sup>**

SHOVEL SIZE

## LESS NOISE

Because the 403E is electric, you will notice a lot less noise when you work. Operators can communicate with people around them and it can be used in noise sensitive areas.

# POWERPACK 1.25QE, 1.50QE, 3.50QE, 3.75QE, 3.100QE

JCB's electric Powerpacks provide maximum power in the smallest package, proving the ideal power solution where space is at a premium.

**JCB E-TECH**

**230v-400v**

SINGLE PHASE OUTPUT

**23/104kWh**

POWER CAPACITY

**8-36kW**

OUTPUT CAPACITY

## ZERO NOISE

Alongside zero emissions, electric powerpacks provide silent power around the clock, able to work indoors and underground without causing any disruption.

# DUMPSTER HTD-5E

The HTD-5E Dumpster is the ideal solution for safe and productive working both indoors and outside, designed to save you time, energy and money.

**JCB** E-TECH

**1,225kg**

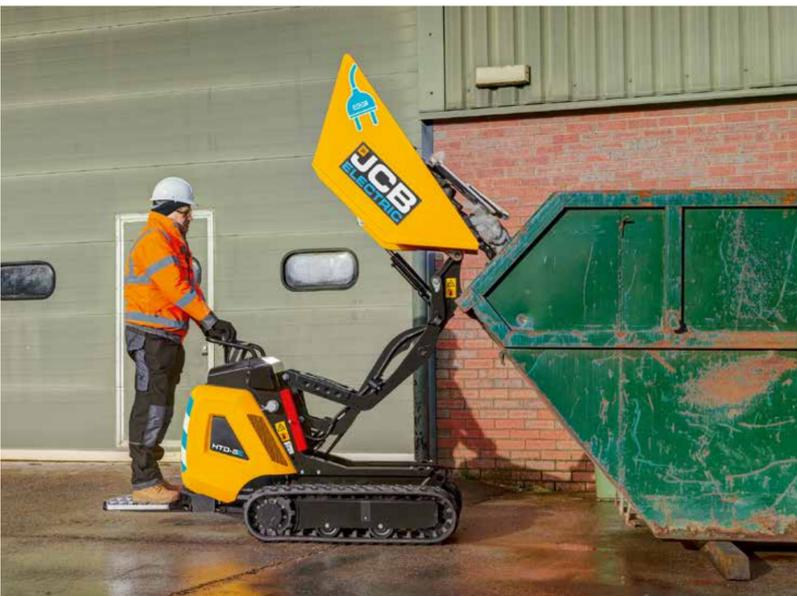

OPERATING WEIGHT

**1.45m**

TIP HEIGHT

**500kg**

CARRYING CAPACITY

## DUAL OPERATION

Offering walk-behind and ride-along capability, the HTD-5E makes moving material easy for the operator across multiple applications.

# TELETRUK 30-19E & 35-22E

With unique forward reach providing up to 20% increased productivity, JCB's Electric Teletruk range is designed to make the most of your time and space.

**JCB E-TECH**

**3,000 / 3,500kg**  
MAX LIFT CAPACITY

**4m**  
LIFT HEIGHT

**1,900 / 2,200kg**  
LIFT CAPACITY 2M REACH

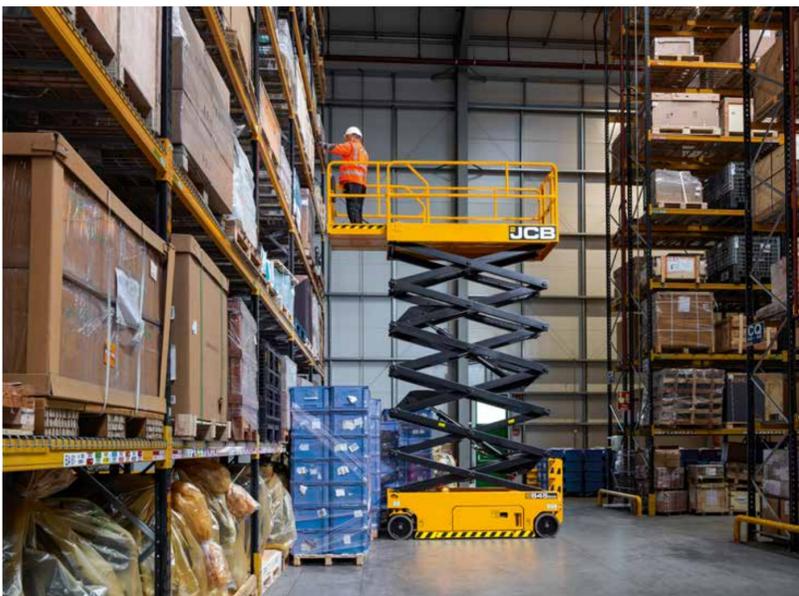

## WORK ANYWHERE

Zero emissions and low noise make the Electric Teletruks ideal for 24/7 use in urban environments and noise sensitive areas.

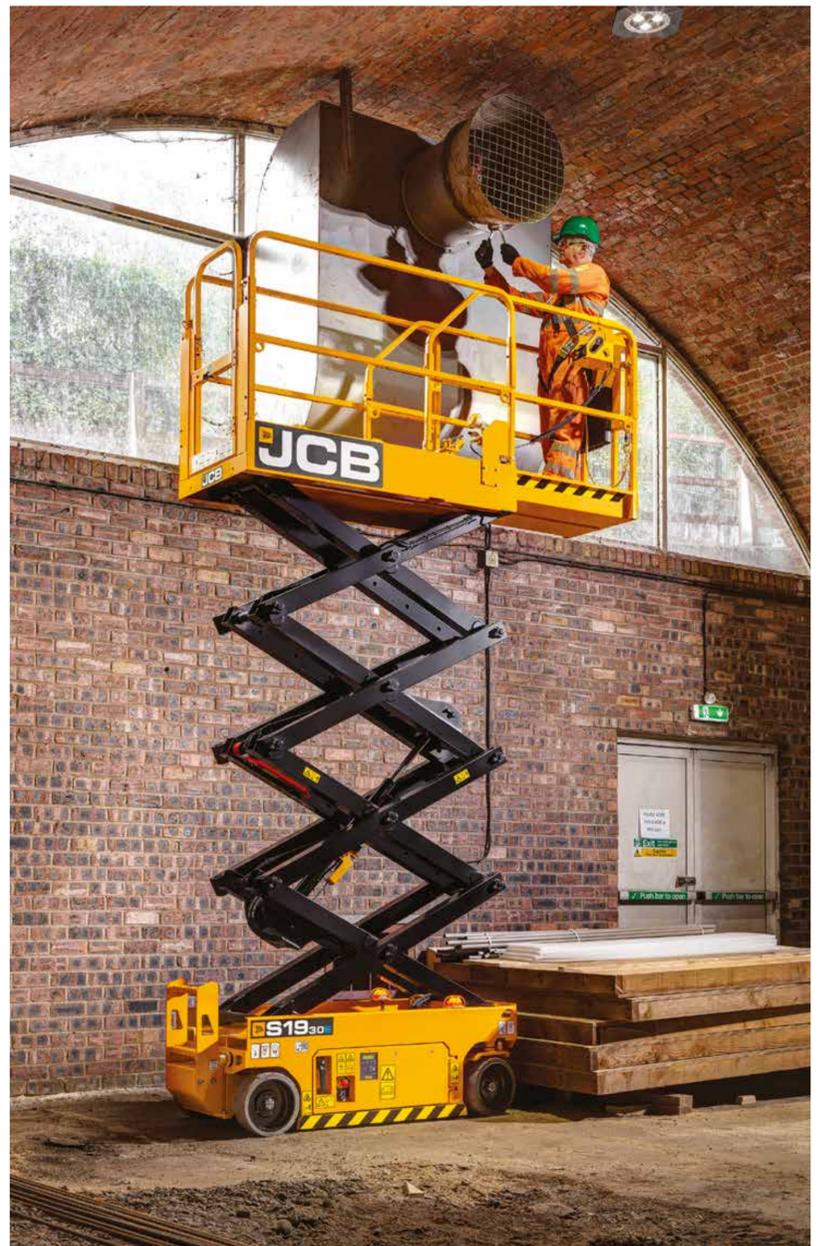

# ACCESS PLATFORMS

Certified to EN280 for CE performance, JCB's electric scissor range meets the needs of rental companies worldwide, ensuring the highest quality standards.

## COMPLETE CONTROL

Fully proportional raise and drive controls allow for precise machine movements.

# UNIVERSAL FAST CHARGER

The universal fast charger is a portable, free-standing charging solution with built in lifting eye, for easy manoeuvrability between sites.

## 100% CONVENIENT

Eliminates the need for numerous charging solutions and is ideal for customers with demanding workloads.

# CHARGING SOLUTIONS

The JCB E-Tech machine range has various charging cable solutions to suit your application.

**JCB E-TECH**

## VARIETY OF SOLUTIONS

Single phase and three phased charging solutions, including standard and fast charge options where applicable.

# JCB LIVELINK

Protect your investment with JCB LiveLink as standard on all electric machines, providing you with all the information you need, whenever you need it.
